

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 130 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

Scientist Analytics (Protein Characterization via CE and HPLC) (m/f/d)

Your responsibilities:

- Development and qualification of analytical methods for the physicochemical characterization of biomolecules (chromatography, capillary electrophoresis etc.)
- Routine measurements of therapeutic proteins for similarity assessments, comparabilities, process development and stability studies
- Independent evaluation and documentation of experiments as well as compilation of reports in agreement with internal guidelines
- System ownership for one or more analytical instruments, including qualification and maintenance according to GMP requirements
- Adherence to and continuous improvement of internal quality standards and workflows
- Preparation of development plans and report drafts

Your qualifications:

- Degree (bachelor, master, diploma) in Life Science, Pharmaceutical Sciences or a comparable field
- Relevant work experience in the biopharmaceutical industry with experience in a GMP environment is considered advantageous
- Hands-on experience in protein analytics
- Very good team player, result oriented, well organized, proactive, problem solver and able to work independently
- Creativity and enthusiasm for working in a dynamic fast growing biopharmaceutical company
- Fluent in written and spoken English required, German knowledge is desirable
- Proficient in MS-Office
- German work permit is mandatory

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
