

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 130 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

Scientist II Protein Characterization (m/f/d)

Your responsibilities:

- Development and qualification of analytical methods for physicochemical characterization of biomolecules (chromatography, capillary electrophoresis etc.)
- Design, execution and report compilation for forced degradation studies
- Routine measurements of therapeutic proteins for similarity assessment, process development and stability studies
- Support for the compilation of high quality scientific documents (e.g. technical documentation package, SOPs, reports, risk assessments, master plans, sampling plans, memos) to hand over to internal and/or external partners (e.g. Quality, regCMC, health authorities, external companies) and support generation of international registration documents (CTD, BB, IMPD, IND etc.)
- Supervise external testing labs for physicochemical characterization methods
- Take over responsibility for one or more analytical testing equipment, including qualification and maintenance according to GMP requirements
- Produce high quality documentation and presentations of performed studies and present them in internal and external meetings

Your qualifications:

- Degree in Life Science, Pharmaceutical Sciences or a comparable field
- Relevant work experience in the biopharmaceutical industry with experience in a GMP environment
- Experience in design and execution of stress stabilities and forced degradation studies
- Hands-on experience in protein analytics
- Very good team player, result oriented, well organized, proactive, problem solver and able to work independently
- Creativity and enthusiasm for working in a dynamic fast growing biopharmaceutical company
- Fluent in written and spoken English required, German knowledge is desirable
- Proficient in MS-Office
- German work permit is mandatory

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
