

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 130 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

Scientist II – Project Analytics (m/f/d)

The Scientist II project analytics supports the project analyst department across different projects depending on the ongoing activities. Therefore, the position requires on the one hand flexibility during daily work and offers on the other hand exciting insights into the various projects. Diligent data handling and processing as well as seamless interaction with various stakeholders (project analysts, laboratory staff, and sample administrator) are key elements of this position.

Your responsibilities:

- Support of project analysts across different projects
- In-house organization of internal analytics (shipments, sample handling, analytical requests)
- In-house organization of external analytical data (validity check, documentation, data base entry)
- Writing of protocols and reports
- Ensure timely and accurate compilation and evaluation of analytical data in high quality

Your qualifications:

- Bachelor or Master in Life Sciences or similar qualification (PhD not required)
- Experience in the pharmaceutical industry is considered advantageous
- Very good team player, result oriented, well organized, proactive, problem solver and able to work independently
- Detail oriented and diligent
- Creativity and enthusiasm for working in a dynamic fast growing biopharmaceutical company
- Fluent in written and spoken English required, German knowledge is desirable
- Proficient in MS-Office
- German work permit is mandatory

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
