

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 130 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

Senior Scientist in the Functional Characterization Team (m/f/d)

For our team we are looking for a senior scientist who will support project activities related to the functional characterization. As a scientific and technical specialist you will contribute to analytical discussions, planning or reports and work in close collaboration with internal or external lab teams thereby driving the analytical development within the project.

Your responsibilities:

- Subject matter expert in the area of functional characterization for one of our biosimilar projects
- Establish and coordinate interactions with internal and external partners (CDMOs, CROs)
- Plan, organize and monitor development, validation and transfer of functional assays within regulated environments
- Scientifically and technically support internal analytical teams and work closely with related laboratory teams
- Represent the field of expertise in internal or external meetings
- Compile and/or review high quality scientific documents and support generation of international registration documents and answers to authority requests

Your qualifications:

- Degree (master, diploma, PhD) in Life Science, Pharmaceutical Sciences or a comparable field
- Excellent scientific and technical knowledge in the area of functional characterization and experience with assay qualification and/or validation are prerequisite
- Expertise in the area of VEGF biology is of advantage
- At least two years of relevant work experience, preferably in a GMP- or GLP-regulated environment
- Very good team player, result oriented, well organized, proactive, problem solver and able to work independently
- Creativity and enthusiasm for working in a dynamic fast growing biopharmaceutical company
- Fluent in written and spoken English required, German knowledge is desirable
- Proficient in MS-Office
- German work permit is mandatory

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
