

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 100 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

Senior Scientist Packaging and Device Development (m/f/d)

Your responsibilities:

- Drive the characterization, selection and development of the best primary packaging combinations for Formycon's biosimilar programs
- Manage development, characterization, sourcing of primary and secondary packaging components with internal and external partners (e.g. suppliers, CROs)
- Prepare and/or review all documentation related to primary and secondary packaging components (e.g. customers specifications, control procedures, analytical methods protocols and reports)
- Take the lead for the qualification and maintenance of equipment for primary packaging and device testing
- Plan and drive secondary packaging and outer sterilization together with external partners
- Setup, support/maintain the design history file (including all related activities and documentation) for combination products together with internal and external experts
- Comply with the requirements of the Quality Management System (QMS) of Formycon AG
- Compile of high quality scientific documents as needed (e.g. technical documentation package, SOPs, reports, risk assessments, master plans, sampling plans, memos) to hand over to internal and/or external partners (e.g. Quality, regCMC, health authorities, external companies) and support generation of international registration documents (CTD, BB, IMPD, IND etc.).
- Represent Packaging and Device Development for the Drug Product Area in internal and external meetings and conferences
- Establish and coordinate relationships with internal and external partners (CDMOs, CROs, license partners)
- Lookout for new packaging, devices and related technologies to be introduced in upcoming programs

Your qualifications:

- Master of Science, Dipl. Ing. Biochemistry, Biotechnology, Pharmaceutical Sciences and several years of work experience in relevant industry
- PhD and more than 3 years of work experience in relevant industry
- Excellent knowledge in drug product primary and secondary packaging and/or drug product device development
- Very good team player, result oriented, well organized, proactive, problem solver, able to work independently, strong presentation and communication skills
- Creativity and enthusiasm for working in a dynamic fast growing biopharmaceutical company
- Strong command of spoken and written English
- Very proficient in MS-Office package

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
