

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 100 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

Scientist (m/f/d)

Your responsibilities:

- Development and qualification of chromatographic as well as capillary electrophoretic (CE) methods for characterisation of therapeutic proteins
- Routine measurements of process and stability samples
- Independent evaluation and compliant documentation of experiments as well as compilation of reports
- Keep up and improve the quality standard of the laboratory

Your qualifications:

- Master in Life Sciences or similar qualification (PhD not required)
- Hands-on experience in protein analytics, including HPLC and CE
- Experience in the pharmaceutical industry is considered advantageous
- Proficient in MS-Office
- Good knowledge of English and German required
- Independent, structured and organized work style
- Ability to work well in teams

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
