

Formycon AG is one of the world's leading developers of biosimilars. With an experienced team comprised of more than 130 professionals, the company is able to span the entire value chain of biosimilar drug development, from market analysis and protein analytics, to the development of production processes, to clinical trials and the regulatory approval process.

To support our team in Martinsried near Munich, we are looking for suitable candidates for the following fulltime permanent position, to begin work as soon as possible:

## Senior Scientist Project Analytics (m/f/d)

The project analyst is the single point of contact regarding overarching as well as in-depth analytical assessments. As such she/he interacts with a variety of internal and external customers and ensures the timely delivery of high quality analytical summaries in the form of key documents for development and submission.

### Your responsibilities:

- Be the single point of contact in analytics for internal and external customers
- Lead and plan analytical activities
- Ensure timely delivery of analytical project tasks in high quality
- Represent the analytical team in technical team meetings
- Closely interact with project management, regulatory CMC, and analytical experts
- Compile and review overarching documents with focus on analytics (e.g. analytical development masterplan, similarity assessment, DS/DP comparability)
- Participate in meetings with regulatory agencies (EMA, FDA)
- Together with experts on individual topics answer requests from authorities with a focus on analytics
- Present analytical project updates in internal and external meetings
- Contribute to budget planning activities

### Your qualifications:

- Degree in biology, chemistry, biochemistry or a related field
- A minimum of 3 years' experience in the biopharmaceutical industry or a highly related field
- Applied in-depth knowledge of (glyco) protein analytics
- Passion to deliver against tight timelines
- Very good team player, result oriented, well organized, proactive, problem solver and able to work independently
- Fluent in written and spoken English required, German knowledge is desirable
- Proficient in MS-Office
- Creativity and enthusiasm for working in a dynamic fast growing biopharmaceutical company
- German work permit is mandatory

Bring us your skills and energy and shape your own career in a stimulating and open work environment. We are looking for highly motivated individuals who are ready to take on new challenges with enthusiasm and personal commitment. Working at Formycon means being part of a smart, innovative team with minimal hierarchy and opportunity to share your own ideas.

Have we sparked your interest? Then we look forward to receiving your application for employment through our online application portal. Please be sure to include all supporting documents, along with your earliest possible starting date and your salary expectations. We look forward to learning about you and the qualifications which you would bring to this position.
